

SHADE TOLERANT PLANTS

Acer campestre
Acer ginnala
Acer pensylvanicum
Ajuga species
Alchemilla species
Amelanchier species
Aquilegia species
Aristolochia durior
Aronia species
Astilbe species
Azalea calendulaceum
Azalea canadense
Buxus species
Calycanthus floridus
Carpinus caroliniana
Cephalotaxus harringtonia
Cercis canadensis
Chionanthus virginicus
Clematis
Clethra alnifolia and varieties
Convallaria majalis
Cornus species
Dicentra eximia
Digitalis species
Enkianthus campanulatus
Euonymus fortunei 'Coloratus'
FERN species
Galium odoratum
Gaultheria procumbens
Hamamelis species
Hedera helix
Hemerocallis species
Hosta species
Hydrangea anomala 'Petiolaris'
Hydrangea arborescens
Hydrangea quercifolia
Ilex crenata and varieties
Ilex glabra and varieties
Ilex opaca
Ilex pedunculosa
Itea virginica
Kalmia latifolia and varieties
Leucothoe species
Ligularia species
Ligustrum species
Lindera benzoin
Lonicera species
Magnolia virginiana
Microbiota decussata
Ostrya virginiana
Oxydendrum arboreum
Pachysandra terminalis
Parthenocissus species
Pieris species
Rhododendron – most broadleaf types
Rhododendron maximum
Rhododendron wilsoni
Symphoricarpos species
Taxus species
Thuja plicata and varieties
Tiarella
Tsuga species
Viburnum – most non-fragrant species
Vinca minor
Xanthoriza simplicissima
